

Combat Subversion

(By I. D. WILLIS, Post Hope, Ont.)

Canada is one of the great empires of the world. Here, in this vast, fertile land, we are producing materials to make at the black heart of Despotism.

Germany knows how intense is our effort and how great the obstacles to our success. She is not sitting idle while we work for her downfall. Through her devilish efforts, "Quilling" machines are doing everything possible to hinder that effort, and to undermine our determination to merdise every inch of our own soil.

Italy, Holland, Belgium and France, who tragically became slaves under their own feet, are doing their best to hinder our efforts. They are doing their best to hinder our efforts. They are doing their best to hinder our efforts.

There are proposals, advanced as small unimportant reforms, that would mean that our own efforts could be created by the government without their being used for heavy taxation and loans. This is a proposal that would mean that our own efforts could be created by the government without their being used for heavy taxation and loans.

There is no way to win this war. It must be won by the determination and bitter self-sacrifice of the Canadian people. It must be won by the determination and bitter self-sacrifice of the Canadian people.

It is our duty to win this war. It is our duty to win this war. It is our duty to win this war.

It is our duty to win this war. It is our duty to win this war. It is our duty to win this war.

Alberta Game Regulations For 1941 Season

Enactment of the number of birds for shooting of ducks and geese in Alberta this year, from three to ten, is revealed in the new regulations for the 1941 season, issued by the provincial authorities.

The dividing line between the two seasons is the Athabasca River.

For Sharp-shin and Red Grouse, there are three zones instead of two. The third zone has been established south of the C.P.R. line through Calgary.

This year there will be no special license to shoot duck pheasants, this being covered by the general license. There is no special license for non-residents, this being included in the general game license.

He is tentative proposal for Alberta game seasons this year:

FARRELL LAKE NEWS

The members of the W.I. met last Thursday afternoon at the home of Mrs. Newman. Quite a large number were able to be present. The meeting was opened with "O, Canada!" The "Crowd" was then re-elected. The secretary read the minutes of the last meeting and gave a financial report. It was decided upon to meet at Majestic Hotel on Thursday, to quilt two more quilts for war refugees. The president brought up the matter of the bazaar in the fall, and suggested that members try and turn in war work done for the bazaar next year. Mrs. Dahl gave a "Book Review." The roll call was taken with an "Amen" made man.

The meeting was adjourned, and the ladies adjourned a chat together over the excellent lunch served by the hostess.

Mrs. A. Phillips recently arrived in the neighborhood to pay a visit to her son and family. Mr. and Mrs. C. Phillips.

Mr. Mackinlay was a recent visitor over the week-end at the home of Mr. and Mrs. George Cammidge.

Mrs. Major Ridley and son Kenneth, of Edmonton; and Mrs. Ed. Ridley and three sons, Robert, Donald, and Robert, of Spokane, were recent visitors at the home of Mr. and Mrs. George Cammidge.

George Cammidge started threshing last Friday afternoon, and says the work is in good condition for threshing.

David Shand, and son Arnold and daughter Beryl, were guests at the home of Mr. and Mrs. F. Trout.

Jack Mackinlay was a recent visitor at the home of Mr. and Mrs. A. A. Baidon, and son Dennis.

Victor News

Mr. and Mrs. Pellock and family spent Sunday afternoon at the home of Mr. and Mrs. C. Phillips.

Mrs. Russell Farrell left on Thursday for Calgary. We are sorry to hear that Mrs. Farrell is again in poor health.

Mr. and Mrs. C. Phillips and Bill Linquist and young family were shopping in Delia last Saturday afternoon.

The last Club meeting was held at the home of Mrs. Jim Munro, on the second Thursday of last month. A size crowd turned out; the meeting being presided by the president, Mr. J. Debusse. The secretary read the minutes of the last meeting, after which the business of the day was taken up and dealt with. Mrs. C. Holm, offered her home for the next meeting, but it was decided later to postpone any further meetings until later in the season, due to danger of contracting influenza perils or sleeping sickness. The meeting adjourned and the hostess served a delicious lunch.

Miss Isabel Log and Miss Evelyn Ridley visited with Orlan Dahl last Thursday.

Miss Hawkins paid a visit to his home over the week-end, and was very much pleased with the work done by the members of the club.

Mrs. Chas. Holm was a recent visitor in Calgary. Mrs. Holm, we are sorry to hear, is in poor health and is in the capable hands of Dr. McNeil of that city.

University of Alberta

Drop from the 1,867 students registered in 1940 at the Alberta University is expected for the next semester to about 1,800. This is the opinion of A. E. Curren, registrar. The use is not expected to be the cause for the expected decline. Reduction, partly suggested by the fact that students for these days. All new students must undergo thorough physical examination before being accepted for admission. This University entrance has been taken to the University of Alberta. Private houses and business firms have to be found for other students.

Canadian National Earnings

The gross revenue of the all Canadian National Railways company for the month of July, 1941, was \$6,320,000, as compared with \$6,275,000 for the same month of 1940, an increase of \$45,000.

An Ethical Religion

A local minister who was generally respected the other day on receiving a letter from a friend of an ancient, non-treated some eighteen years ago and long considered lost, as the delinquent of the past.

This delinquent, a gentleman of color and present living in California, is now a follower of Father Divine, whose original and teaching principles that wrong be rectified and debt be paid, no matter of how long standing. It is understood that this man, no longer residing here, are also being paid their claims by the hostess.

It might not be amiss to contrast Father Divine's principles with those practiced in political-religious groups elsewhere. But while it has been held out impossible to contrast politics with religion in theory, in practice it has been proven that the political apparatus can be used to serve the ends of the state, and the ends of the state are changed to the detriment of both ethics and religion.

Support grows for A.M.A. Campaign

All parts of the province continue to show growing interest in the campaign organized by the Alberta Medical Association to induce the Alberta government to "debunk" motor revenues for road improvements.

There has been a section of the province not believed much strongly in this case, as there is hardly a section of the province that feels it is not in need of highway improvements.

When the provincial government is asked to contribute of \$6,000,000 in the form of gasoline tax and license, it is felt that a considerable number of motorists will be on the road.

The province of Ontario has set a fine example of what should be done by the Alberta and other provincial governments. For many years the Ontario government has received motor revenues for road purposes, and has made them into a highway fund.

Today Ontario enjoys the best roads in the world, and the Ontario government has made a fine example of what should be done by the Alberta and other provincial governments.

The A.M.A. campaign in Alberta is now in progress, and it is hoped that there are indications already that when the next session of the legislature is held, there will be demands for action of the policy advocated by the A.M.A. Strong public opinion and press support in this province will bring this about.

Dealers in Hides Must Secure Radio License

Farmers and Livestock Processors Exempted

OTTA, Canada. They permit dealers in hides and skins to sell and dispose of hides and skins made a license from the Wartime Prices and Trade Board. The fee for the license, which is effective August 10, 1941, is one dollar.

The order exempts livestock dealers, farmers or livestock processors dealing in hides or skins, and those who sell only one or two hides or skins at a time.

But butchers and others who store, sell or sell, and or old storage hides and skins require a license, even though they dispose of hides or skins sold in their own place of business or handle only small quantities for sale to others.

Application forms for licenses to deal in hides and skins may be secured by mail, or by direct communication with the Wartime Prices and Trade Board, Ottawa. Any person dealing in hides and skins, other than a farmer or livestock processor, who is in doubt as to whether he requires a license should write to the Wartime Prices and Trade Board indicating the nature of the hides business in which he is engaged.

It seems strange in face of the recent surpluses in provincial revenues that, in answer to representations on this matter by the Alberta Motor Association, it was stated that no further travelling of the highway is contemplated this year.

In view of the very considerable revenue collected from trucks, the service and private motorists who drive on the road, and the large numbers, this is nothing less than a shabby treatment and is regretted as such.

As a result of the fact that the public has been advised by officials of the A.M.A. that thirty miles of this highway north of Drumheller is dangerous, and this is nowhere more fully realized than by those whose business compels them to travel over it frequently. During the recent rains the loss from Calgary, as in Delia at 11:45 a.m., arrived at 2 p.m. just and a quarter hours behind time, and it can be left to the imagination as to what was happening to trucks and the private motorists who were travelling on this highway.

In connection with this steadily mounting revenue that is extracted by the government from motor traffic upon this highway, very little has been spent upon it in recent years. As a matter of fact the cost of its original building was paid for by the government, but a relief measure somewhat around 1930, and the initial travelling was completed by the U.F.A. province government of that day.

It has been suggested that it can be left to the imagination as to what was happening to trucks and the private motorists who were travelling on this highway.

Cultivating Dry Land

Stubble After Harvest

Local Agricultural Station
Fruit and Vegetable Section
Cultivating stubble fields immediately behind the combine is one of the interesting recent developments of wheat farming culture in Southern Alberta. The advantages that are to be derived from this practice are: first, to check weed growth in the stubble; second, to prevent the soil from becoming too hard and compacted after harvest is over; and third, to prevent the soil from becoming too hard and compacted after harvest is over.
